PROFILE

Tech-driven problem solver, pursuing a B.S. in Computer Science at Tec de Monterrey.I craft solutions and push limits in everything from full-stack development to managing complex projects.Freelancing keeps me sharp, as I continuously hone my front-end, back-end, and UX/UI skills. Daily grind? Communication and teamwork—because winning solo isn't an option. Let's disrupt.

EMPLOYMENT HISTORY

Aug 2024 — Dec 2024

FullStack Developer, Stardust Agency LLC

- At Stardust, I manage the end-to-end development of web applications, encompassing everything from initial planning and design to implementation and deployment. I engage with the company's complete tech stack, ensuring seamless integration and optimal performance across all project components. Although my main role revolves around web development, I also handle diverse IT tasks, actively contributing to various facets of the agency's operations and supporting the team in reaching our objectives.

Dec 2023 — Present

IT Team Leader , Biointellectus
Mexico City

- I initially completed my social service at the company, and after six months, my strong performance earned me a formal job offer. Today, I focus on project management and development, leading programming teams across diverse initiatives such as an e-commerce platform, an online learning platform with on-demand video akin to Udemy or Coursera, and a video game. All these projects are designed to tackle the global challenge of plastic pollution.
